DETAILED ACTION

Claims 17-20, 25-28 and 34-36 are pending.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12 January 2009 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

3. Claims 40 and 41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The metes and bounds of applicants' claims are indefinite since it appears applicants have omitted "the composition (b)" and therefore "the composition (b)" lacks proper antecedent basis in the method that follows component (e).

Allowable Subject Matter

4. Claims 25-28 and 34-39 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not disclose or fairly suggest the specified components in the specified amounts.

Response to Arguments

6. Applicant's arguments filed 12 January 2009 have been fully considered but they are not persuasive.

7. The new claims 40 and 41 have been addressed above.

8. Applicant's arguments with respect to claims 40 and 41 have been considered but are moot in view of the new ground(s) of rejection. No prior art has been applied to claims 40 and 41 since they are too indefinite to make a patentability determination.
